

## BE THANKFUL AND SHARE THIS AMAZING GIFT

My Arbonne journey started almost exactly 12 months prior to promoting to RVP. I started to use Arbonne products simply because I needed some new skin care products. My sponsor, ERVP Barbara Eisenthal, offered me a life-changing opportunity. Now the question was, what am I going to do with it?

I did not think I had time for a new business. I was extremely busy with a 20-month-old daughter and active, 4- and 6-year-old sons. My husband had understandable concerns about how I was going to prioritize my time. He did not want this business to take time away from our family, and neither did I!

Only five years prior, my sister and I had run a family-owned Italian restaurant that required most, if not all, of my time. My husband, David, and I wanted to avoid all of the conflicts over time issues that had happened over my work. However, Arbonne was knocking, so, I jumped into the business with both feet. I started believing I could help people with Arbonne's incredible products, and potentially earn additional income.

Following my launch Presentation in January of 2005, I signed up four business builders to my amazement. My immediate and ongoing challenge has always been to learn how to find time to lead others, and how to keep my family life first, given my limited time. I am grateful Arbonne has helped me learn this as I continue to grow in this area.

My number one priority is to be able to stay home with my three children and still be available to volunteer in their class, take them to karate or baseball, to the park. I work part-time hours, but potentially I have a full-time income. What a blessing it is to be there for my children and family. And now I even have my own brand new, 2006 white Mercedes-Benz to show for it!

Set your goals high and do not stop until you reach them. Write down your affirmations and read them several times a day. Affirm your suc-

cess and write down five things you are thankful for every night. This company and the people in it are humble, strong spiritual-loving and bound by a code of ethics that I strive to live my life by daily. I truly believe I am sitting on the "golden egg!" I have something so special to offer and must share it with everyone. Arbonne is a gift.

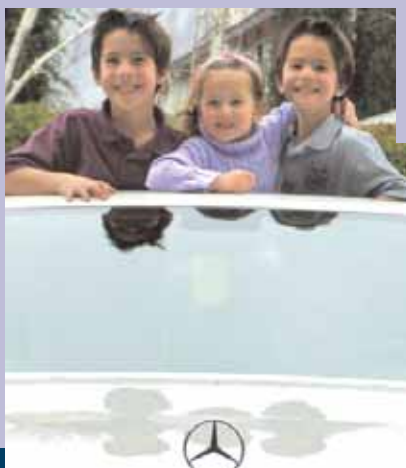

To my husband, David: Thank you for supporting and encouraging me, even when it is stressful, and for rearranging your schedule as often as you do to help take care of the children. You have always worked very hard to provide us with a wonderful life. Now our family has a plan B. I love that we are working together to build our future for ourselves and for our children. We are now potentially providing for vacations,

## success strategy:

“ Believe in yourself and the power you have to control your destiny. ”

college funds, weddings and our future, with ease. I love you, you are a blessing and your support means everything to me.

To my precious children, Joseph, Daniel and Sophia: I see your beautiful, smiling faces every day and it makes my heart melt. Thank you for just being your wonderful selves. Your presence alone makes me strive to succeed. Thanks to Arbonne's Skin Conditioning Oil and cleansing gel, my son, Joseph's, eczema is gone after battling a severe case of it for five straight years. We, as a family, will never stop using these products.

To my parents, Don and Rosemary Franco: Thank you both for loving and supporting me. Dad, thank you for instilling in me that no one person will ever make or break me. Your hard work and perseverance is something that is invaluable to me as a leader. Mom, your unconditional love and belief is what helped me know that I could do this and succeed. I love you both so much. To my sister, Deanne: You are my best friend and always encouraged me that I can make this happen. I love you.

To ERVP Barbara Eisenthal: Meeting you was no accident or coincidence. I believe there is a reason, or lesson, to be learned with every person we meet. You were a blessing from the moment I met you. You are my visionary and saw my success way before I did. Belief is the number one key ingredient to success and you believed in me. Barbara, you are an incredible leader and have become my close friend. I am so blessed and thankful to have you in my life.

To my team: Without you, none of this would have been possible!

To my first Area Manager and one of my best friends of 17 years, Dee Dee Cole: You are one of the strongest women I know. I am so honored and thrilled to share this experience with you. I love you and I cannot wait to promote you to RVP.

To my first four District Managers — Nadine Rothermel, Gina Howarth, Theresa Chiarelli and Jessica Villa-Lovos: You have been with me from the start. You all were so patient and encouraging as Barbara, basically, trained us all at once. I have grown to know you all as business partners, but more so, I have loved you as my close friends. One of the best days with Arbonne will be when I promote each one of you to RVP and see you drive off in your Mercedes-Benz. I will never lose sight of the fact that you have all been with me since the very beginning.

To all of the other District Managers in my Region — Dotty Grant, Debbie McCallick, Ming Snow, Dianne MacKinnon, Kristina Bagatourian, Ella Peterson and Rosie Montanez: You are continuing to grow and will reach your goals. You inspire me with your determination!

To Lisa Reeder, Dr. Christina Jones, Cathy Woillard, Joannette Dorazio, Sara LaPorte and all the other Consultants in my Region: You all have the qualities a business builder should have. Never give up. I am here for you and I believe in you. I could not be an RVP without all of you.

To President Rita Davenport: Thank you for always letting your light shine and for truly caring. To new Chairman and CEO Bob Henry: Thank you for reading our e-mails, making changes when requested and for having a heart of gold. To all of the other VPs: Thank you for making such a difference through training us daily.

I am so thankful and humbled for all that Arbonne has offered me. It is more than I could have imagined. To all of you, I say, Let your light shine and share this amazing gift with everyone.
