

GIVE YOUR DREAMS A CHANCE

Let me paint you a picture of our life before Arbonne. My husband and I both worked outside of the house and our kids were being raised in daycare. I barely had time to get home and make dinner before I had to put the kids to bed, so that we could get up the next morning to start our stressful routine over again. Our quality time as a family was very limited and we were missing watching our children grow up. Our life was chaos and something had to change. That is when I received a call from NVP Julie Lackner.

Julie left me a voice mail and when I returned her call she was not home, so I ended up speaking with her husband, Dennis. When I asked him how things were going, he began to tell me about this new business Julie was doing called Arbonne. He told me that as a result of her Arbonne business, Julie had been able to replace her work as an X-ray technologist, stay home with her kids and drive a white Mercedes-Benz. I could not believe what I heard. This sounded exactly like what we needed and I wanted to learn more about this business.

I scheduled a Presentation with Julie and she sent me some skin care product samples to try. I could not believe the change in my skin and knew right away that these products were amazing. After listening to the Presentation, I was very impressed with Arbonne's philosophy and with the opportunity. It was then that I realized this business came into my life at the right time and knew I had to give it a chance.

At the start of my business, I realized quickly that I had many fears and a very large comfort zone. So, I relied on Julie's belief in me and tried to do everything she asked me to do. I did this even when it meant leaving my comfort zone. Although my business grew, I still struggled with offering the opportunity, due to my lack of belief in network marketing. It was at ERVP Juli Nilson's car presentation that my belief changed. I saw the type of people who were involved in this business and it made me want to become a better person. I also had the chance to see the lives that were being changed because of

this business. I realized how blessed I was to have been offered the gift of Arbonne. I asked myself, how could I not share this opportunity with others? I could not wait to get home and share it to help change other's lives, just as mine was being changed.

I am glad to say I have now been able to quit my job as an X-ray technologist to stay home with my children. Our lives are no longer chaotic and we have quality time as a family. I can see dreams for our future that I could not see before. My belief in network marketing has changed because with Arbonne, you have the potential to succeed! But first, you just have to believe in yourself and in what you are doing, in order for others to believe in you, too.

I would not be where I am today without my amazing team and all of the people who believed in me.
