

LIVE LIFE IN ALL CAPS

How many of us are in "Survival Mode"? Well, I was. I felt stretched in all different directions. But not anymore. And guess what? There is light at the end of the tunnel.

I can sleep at night again, knowing my children and I will have a wonderful life – a life with financial freedom, surrounded by the most incredible positive, compassionate people I have ever met. You tell me that the man upstairs does not have a plan for all of us? I believe the life I have lived has prepared me for my Arbonne business. I never saw it coming, but here I am, four and a half months later and lovin' it!

What amazing people I have met and who have joined our team. Charlene Rudee, one of my best friends, took her leap of faith in my first month and is busy building her million-dollar business. She is just one of the many friends I have known for years who has joined my Arbonne business; some are relatively new friends and now lots are brand new ones! Attitude is contagious. People with positive attitudes seem to "get it all," and everyone wants to be around them. This is what our team is made of!

I have owned a hair salon for four years and been a successful hair stylist for over 25 years. I am a single Mom living on Maui with two amazing children – Sophia, 8 and Beau, 6. They are the driving force for me to make the most out of each and every day!

Arbonne was introduced to me by Patti Jones from Oklahoma City. She is married to Ronny Jones, the brother of my 16-year-old sweetheart who was killed in a motorcycle race when I was 16 years old. All these years, this incredible family continues to be in my life in an amazing way! It

took Patti nine months of "dripping" Arbonne on me to finally get me to pay attention to what Arbonne could bring into my life. Her persistence paid off. On December 12, 2006, my Arbonne journey began.

My team grew fast. So fast! I realized this business that I had thought would bring in an extra \$1,000 had just taken a life of its own, and I had to decide to run with it or not. So I took the leap of faith and "went for it."

success strategy:

“Life is for the living ...
live it to the max!”

Thank you, Patti and Ronnie Jones! I am no longer “behind the chair” in my salon. I am able to be at home with my children and family. My father is very ill with cancer, recently diagnosed in January, one month after I began my Arbonne business. If it had not been for my upline and downline picking up the slack for me, our team would not be where we are today. Thank you all!

Ironically, it was my father, back in 2003, who tried to introduce me to Arbonne. I remained closed-minded, and would not even hear about it. You see, I am originally from Oklahoma, and his best friend’s daughter was a National Vice President who sold my step-mother, Karan Schafer, NutriMinC® and she absolutely loved it. I did not listen then – Oh well. Here I am in Deanna Herrin’s Nation and I am happy to be here. Timing is everything.

Thank you for all of the great training, AM Patti Jones, RVP Kimberly Albee and ENVP Deanna Herrin. You are all amazing leaders – my inspirations to become the best I can be!

My father and step-mom, Karan, who is also in my business, remain my biggest fans and always will be. My father is my hero! Arbonne is the business he wants me to be in, and there is nothing better than good old-fashioned family support and “father knows best!” People who love and trust you will walk into your business because of you. But with the excellence of the Arbonne products, they will stay in it and be able to live the life they never dreamed imaginable for themselves. The best part of all is the feeling you have when you see Arbonne change others’ lives for the better as well.

Thank you to all of my Area Managers for your amazing leadership qualities and ability to take your Consultants to the next level.

And thank you to my dear friend, Gayle Gillespie, who followed me home the day I told her I was doing the business, brought all of her tools and never looked back! She said, “I am going to the top with you,” and here we are, on our way! Thank you, Gayle.

Thank you to all of my District Managers for believing in yourselves and for taking the leap of faith to begin your very own Arbonne business. You are on your way!

Thank you to all our new Consultants, wanting to get their businesses started on our team. We are here to help you. You are not alone!

Thank you, President Rita Davenport, for your call and your words of kindness. You are one amazing gal.

Special thank yous to Michelle Titony, for your confidence in me as a leader and for all of your encouraging words, and to Betty McMillan, for your incredible way of immediately making people feel comfortable in your presence. You were the one person that tipped the scale of kindness and helped me see that everyone in Arbonne is here to help.

Thank you, crosslines, for all your support.

Deanna Herrin, I want you to know, I am still “chasing you.” I am a “lifer” too, so I guess I will chase you for a lifetime.

Remember, life is for the living. You can begin by taking great care of yourself, but do not forget to live, love, laugh out loud and, most of all, dance like no one is watching! I feel like I am really living life to the max with my Arbonne business. If you are reading this and are not yet in our Arbonne family, I have to ask you – what are you waiting for?
