

THE LIVES WE CHANGE

We are so blessed. First, we have two daughters, ENVP Becki Barns and NVP Kim Barnes, leading the way for us to experience the wonderful journey with Arbonne. Second, we have discovered what an incredible company Arbonne is, and have been given a new passion and direction at this point in our lives. Third, we feel honored to be totally accepted by everyone on our team, despite the age range. We value each of them as our special friend. None of this could have happened had we not been blessed by our friend and leader, ENVP Cecilia Stoll.

Retiring five years ago from a medical career as an orthopedic surgeon, Ed was content with volunteering in our church and playing golf with friends. I volunteered as a spiritual counselor, enjoyed my hobby, watercolor-painting, and ran a gift business on the side. Most of our time was spent enjoying our eight grandchildren and living a life of leisure. When Arbonne entered the picture, we were searching for an exciting new direction that would bring us joy, fulfillment, the potential for financial extras and, most importantly, the experience of giving and working with others. We are now on a path that we know is a journey we have been blessed with. True, we have been rewarded through our success with Arbonne, but we found that the more satisfying aspect of this business is seeing the many lives we have touched and changed along the way. We have seen people become potentially free of stress and worry, and witnessed them grow personally and professionally.

Arbonne has given us a renewed love for travel. Our first generation legs on the team are in Oklahoma, Texas, Iowa, Alabama and Mississippi. We have been to each state several times, helping where needed, meeting new friends in the business, and sharing the excellent training we have received here in Edmond, Oklahoma. We

chuckle that we do not have a "home-based" business, we have a "car-based" business. It has been perfect for us. We have the time, energy and desire to work with people throughout the United States.

Our family has always been the most important part of our lives. We have three married children. They are Kim and Brian Barnes and their children, Brittany, Mackenzie and Blake; Becki and Brent Barns and their children, Carter and Chase; and our son, Steve, and his wife, Kim, and their children, Palmer and twins, Jacob and Jordan. We have been on many family trips together and will cherish the special memories forever. Our eight grandchildren create a big

success strategy:

“ Give and grow with others. ”

Why in our Arbonne life. We would love to be able to continue helping with their education at private Christian schools, as well as provide more opportunities for us to travel together as a family.

Another big *Why* is to help with mission work through our church, as well as outside our church. What a joy it is to be able to give to others in need, some of the blessings we have been so fortunate to receive. Only with Arbonne could the potential for these dreams become a reality so quickly.

To our daughter, ENVP Becki Barns: Your vision to jump in big with Arbonne gave our family a new beginning. What a wonderful daughter you are. We thank you for your leadership, excellent teaching abilities, sincere enthusiasm and, most of all, your loving care for us. You and Brent have been an immeasurable help. We love you.

To our daughter, NVP Kim Barnes: Not only have you been a wonderful daughter, but you have been such a precious, nurturing friend. We thank you for holding our hand and walking in love with us down the Arbonne path. We are so proud of you as you help so many others in your loving way. You and Brian have blessed us greatly with your caring support. We love you.

To our son and daughter-in-law, Steve and Kim Rice: You have both been so great to constantly support us and show concern for our progress in reaching our goal. Having the entire family working together has meant so much to us.

To our grandchildren: You have truly been the light of our lives. You know the hard work involved and have been constantly in touch, cheering us on while we pursue our new life's direction. Who could ask for more? Thanks, kiddos ... love, Bebe and Bunka.

To our AMs, Kelly Ranney, Tommie Blackwell, Judy Roper, Martha Lou Wright, and Nancy and Eric Lindstrom: You are the best. Without your support and hard work, we would not have the great team we have now. We love you all and pledge our complete support helping you reach your goals and beyond. Your friendship is so special to us. Thank you.

To our many DMs, Debbie Jochims, Melissa Phillips, Shelley Jochims, Trudy and Jim Roberts, Judith Bradley, Renae Soley, Barbara Hammonds, Maxine Kilgore and Juli Moran: You are tops. We are soaring high with wonderful, dedicated friends on our team. We promise to watch and support you as you continue your successful climb in Arbonne.

To our wonderful DMs-in-qualification and Consultants: You have come on board and join our team at the perfect time. We shall work together to help each other and give you support to the very end. Thanks for trusting us and becoming great new team members.

To our precious friend and leader, ENVP Cecilia Stoll: We sincerely thank you for the loving, caring confidence you had in us. Never once did we question your advice, or wonder if this was too much for us to tackle. Your integrity, professionalism and godly spirit have been the catalyst to your success. Because of your wonderful qualities, there was no question that we would believe and trust in you completely. We appreciate your and "Mr. Cecilia's" friendship. We love you both.

We truly feel the best part of the journey is yet to come. Having the potential to help others, grow with new friendships and this wonderful opportunity, will be a dream come true for us as we move into our twilight years. Arbonne has once again made a difference in people's lives, and we love it!
