NO LIMITS BUT THE SKY

Independent Consultant, National Vice President
Brook Robertson Nation; Ponoka, Alberta

Looking back 14 months ago, I was not at a very happy place in my life. My marriage had failed and the life I had always dreamed about and worked so hard for seemed to be falling apart. To drown out the pain, I consumed myself with my work. I eventually took on more than I could handle. Even though I was passionate about my work and truly loved what I was doing, I started to burn out. I was self-employed, training barrel racing horses. I chose this profession because it came naturally and I thought by being self-employed I would have the freedom to also pursue my dreams of competing professionally. Well, that was not the case. When you are a dedicated trainer, it is hard to do your job at home and be away at rodeos. It is one or the other and I had accepted that my dreams were never going to be a reality.

During this time, I was introduced to Arbonne by ENVP Sonya Shields. I knew in my heart this could be my way out but like many people, I had fears. I just did not know how I would be able to make it work. With work taking up 15 hours a day and 7 days a week, I did not know where I would be able to fit Arbonne in. I loved the idea of Arbonne so much that I hosted Presentations for my friends and encouraged other people to join the business, but I was afraid to take the plunge myself.

About four months after attending my first Arbonne Presentation, I hit my breaking point. I had to do Arbonne, even if some sacrifices would have to be made. To make time, I would have to send some horses home. This would also mean I would have to suffer financially for a little while. Despite these sacrifices, I took the leap and never looked back.

Once I started this business, I knew it was where I was meant to be. I had no idea what I was doing, but my upline told me I could learn as I went along. I knew my upline was going to the top and they would take me with them, so I trusted them completely.

There were many dreamstealers along the way, but they never weakened my resolve. My *Why* was so big, nothing was going to shake it and I never once considered quitting this business. When I got discouraged, I remembered Sonya saying the only way to fail was to quit. When times got tough, I thought of my *Why* and then I worked that much harder. Determined to live my dreams and have the potential to live financially free, I did not even notice when people said no to me. I just continued to share the opportunity and products with everyone I met.

Gradually, my business began to grow. As this happened, I began to realize this journey was not just about me, but about helping change the lives of others. Seeing the amazing changes in other people's lives has given me the greatest joy of all! When you turn your focus toward helping other individuals real-

I do not have children yet but I know when I do, I will be able to be home to watch them grow up. Many people on my team have been able to

stay home with their children. Others are taking vacations, putting their kids through college and finding their way out of debt. Nothing is more rewarding than that!

If you are considering this business, I can only suggest you follow your heart. You may fear many things when joining this business. You may wonder if it really does work.
