

TIME IS OF THE ESSENCE

Is something missing in your life? Would you like to spend more time with your family? Do you want the potential to earn some extra income; to get out of debt, watch your child's recital, or go cruise around the world? If you answered yes to any of the questions above, you are not alone. Thankfully, there is a company that has the potential to make all those desires a reality. With Arbonne, you have the potential to achieve anything your mind can conceive. Most of the time, people do not live their dream or fulfilling lives because they do not have enough time or money, or the ability to leverage either one. Arbonne has the potential to offer all that and much more, including friendships, incredible leadership, opportunity for personal growth and incredible, revolutionary, Swiss-formulated pure, safe, beneficial products.

How can you go on a dream vacation or attend your child's play at school and not worry about money? By leveraging your time! Time leveraging occurs when you get paid on your initial investment of time, effort and money, without having to do it all over again. Most of us do not get paid unless we go to work, and have to go to work in order to get paid, so there is no leveraging of our time or effort.

Before I decided to build my business with Arbonne in January of 2006, I was slaving away as an attorney, working 10 to 12 hours a day. One day, I woke and realized the young lady who was getting ready for school, and who was almost my height, was my daughter. Suddenly, I did not notice or remember how she grew up. Most of the time I was too busy for her because I was "busy" making a living. I had to change my life. I needed to create leverage in my life, so I would have time to actually live my life, not just make a living. At that time, my best friend, "spiritual sister," and now business partner, NVP Jana Good, asked me the million-dollar question that she had been asking for years: "When are you going to get it?" Arbonne's positioning in the industry will facilitate creating leverage in your life. So, are you ready to get it?

There are key components to Arbonne's emerging presence in our economy. First, the health and wellness industry is exploding. People's awareness about health and well-being is probably the highest it has ever been. Arbonne offers hundreds of consumable products including skin care, nutrition, weight loss, aromatherapy and cosmetics. Arbonne's skin care products are formulated in Switzerland and manufactured without mineral oil, animal products or by-products. Arbonne's products are tested on human panels for six months before they reach the consumer and have patents pending in the U.S. and Switzerland. And most importantly, the products work; they do what they claim to do.

Home-based businesses are growing like never before. Who in their right mind wants to work for somebody else, be overworked and

success strategy:

“ Believing is seeing. ”

underpaid, and commute two to three hours every day? Through an Arbonne business, you have the opportunity to work from home and set your own hours. This opportunity is available equally to professionals, men and women, stay-at-home moms or dads, entrepreneurs and budding entrepreneurs. With Arbonne, I am able to work from home and spend quality time with my daughter. The baby boomer generation is interested in looking better and aging slower. Moreover, this generation is looking for the potential of an additional stream of income and a home-based business. Arbonne offers REvolutionary anti-aging and wellness products that work, plus a home-based business.

So, how do we leverage our time, effort and money with an Arbonne business? We take advantage of Arbonne's incredible positioning in the marketplace — and unique and superior products — by educating consumers on how to buy the REsult-oriented products at a discount and offer them a REsult-oriented home-based business! Do you get it now? And, did I mention I am a single mom, an immigrant from Russia, and English is my second language? If you find yourself making excuses like, "This business may be easy for her, but it will be hard for me," or, "I do not know a lot of people," or, "I am not a salesperson," then read this paragraph again!

This business is for anyone willing to believe in themselves and put in the effort. On your journey, you will gain a lot of true friendships. You cannot build a successful Arbonne business alone, but that is one of the best facets of Arbonne. You will never be alone because there is always someone who wants to help you succeed. I am carrying on that tradition and helping my team reach their Arbonne goals.

To RVP-in-qualification Lori Mackin: Thank you so much for your greatness, vision, enthusiasm and leadership. You have attracted an incredible team! In my mind, you were an ENVP the moment I met you! To my dear friend and business partner, AM Laurie-Jeanne Lister-Hanes: Thank you for your support, persistence, integrity and vision! I will see you at the top, in no time.
