

ASPIRE TO INSPIRE

One definition for the word *inspire* is “to stimulate action by divine influence.” What inspires you? Arbonne has inspired me and fulfilled many of my dreams.

For one year, I watched my sister-in-law, NVP Amme Weilert blossom with Arbonne. My husband, Andrew, and I witnessed how phenomenally successful she became in such a short time. As we planned our spiritual, financial and personal goals for the following year, we realized that, although we were experiencing tremendous growth with our real estate businesses, something was missing. My husband pointed out how much of my life I committed to family and friends as a source of inspiration. Then, he suggested I might find greater fulfillment with a business where my natural love for friends could be used to its fullest extent.

On January 12, 2005, alongside NVP Amme Weilert, I had my first Presentation in my home. Immediately, I said to myself, “The opportunity with Arbonne is now.” I qualified for District Manager in just two weeks and became an Area Manager two months later. Shortly after, on June 30, one of my dreams came true. While Andrew and I were sitting in a café in Paris, France, Amme called with glorious news — I made RVP! After only five and a half months I had earned a white Mercedes-Benz, all while building the potential for financial success and enjoying special time with the ones I love.

Like many women, I used cosmetics to cover up and hide who I was. Having struggled with rosacea, I felt I was supporting the foundation industry single-handedly! Andrew had always taken care of his skin and because of his persuasion, I finally tried the NutriMinC® RE⁹⁹ skin care products. This was the first time in my life I used a step-by-step skin care regimen and it worked amazingly well. The Arbonne

products have changed the way I look at myself in the mirror and how I feel. Goodbye heavy concealer — I have been Arbonnized. I know I am using the best products when Andrew cups my face in his hands and gently caresses my arms — not bad for a Kansas country girl!

Throughout high school and college, one of my greatest joys was building special friendships. Through those friendships, I grew, laughed and learned about how to share dreams, goals and aspirations. As life progressed, it brought along careers, husbands, children and new experiences for us to enjoy and embrace. However, for many of us, a longing lingered inside to once again

experience the caring involvement with those special people. Arbonne fulfilled this longing by bringing diverse groups of people together — whose hearts and minds connected as they inspired each other to excel personally and financially.

Arbonne is not an individual business; it is a shared business. Everyone climbs together. Andrew is now in Management and many of my family and dearest friends are climbing along with him as we build huge success together. What a blessing! Once the Arbonne bug gets a hold of you, the vision is clear. You will laugh outloud, cry, leap for joy, wake up at night with excitement, take better care of yourself, exhaust yourself with the passion that you feel *and* become inspired.

I hope the following advice is an inspiration to you: Appreciate the success of others, praise leadership, be selfless, value what you have, be humble, sacrifice, listen more, be open to coaching and embrace differences; take care of one another; provide a soft hand when comforting each other; laugh every chance you get; work together to dream and fulfill goals; genuinely love your Consultants and invite them into your life; praise people, promise a lot and deliver more; share this opportunity as a gift and be thankful.

To my handsome husband, Andrew: Your endless love, support, prayers and inspiration continue to drive me forward. You lift me up spiritually — you light my fire! Without you, our success with Arbonne would not have been possible — you are my rock. Together we can achieve anything.

To my adorable son, Dominic: You are my sunshine! Arbonne will allow me to create a bright future for you. Your gentle questions and curiosity inspire me to excel. Thank you for staying awake so many times so that I could kiss you goodnight. You are a blessing from above.
